Composites Science and Technology **33** (1988) 323–324

CONTENTS OF VOLUME 33

Number 1

Relaxation Transitions, Fracture Toughness and Post-impact Residual Capacity of Carbon-Fibre Reinforced Composites 1
M. AKAY (UK)

Temperature Dependence of the Dynamic Properties of Phenolic-Fiber-Reinforced Thermoplastics 19
EIICHI JINEN (Japan)

The Fracture Behaviour of Carbon Fibre Reinforced Poly(Ether Etherketone) . 35
P. J. HINE, B. BREW, R. A. DUCKETT & I. M. WARD (UK)

Book Review 73

Conference Diary 75

Number 2

Micromechanical Analysis of the Strength of Unidirectional Fiber Composites . 79
JACOB ABOUDI (Israel)

Thermoplastic Impregnated Fiber Bundles: Manufacturing of Laminates and Fracture Mechanics Characterization 97
K. FRIEDRICH (FRG), T. GOGEVA & S. FAKIROV (Bulgaria)

Implosive Consolidation of Polymer Ceramic Powder Composites . . . 121
A. H. MUHANNA & T. Z. BLAZYNSKI (UK)

Composites Science and Technology (**33**) (1988)—© 1988 Elsevier Science Publishers Ltd, England. Printed in Great Britain

The Measurement of Fracture Energy in Aligned Composites 135
C. Y. BARLOW & A. H. WINDLE (UK)

Announcement 151

Conference Diary 152

Number 3

Fretting Fatigue Studies on Carbon Fibre/Epoxy Resin Laminates: III—Microscopy of Fretting Fatigue Failure Mechanisms 155
K. SCHULTE, K. FRIEDRICH & S. KUTTER (FRG)

Thermal Cycling and Mechanical Property Assessment of Carbon Fibre Fabric Reinforced PMR-15 Polyimide Laminates 177
G. A. OWENS & S. E. SCHOFIELD (UK)

Micromechanisms of Crack Extension in Unmodified and Modified Epoxy Resins 191
IT-MENG LOW & YIU-WING MAI (Australia)

Acoustic Emissions and Transient Elastic Waves in an Orthotropic Laminate Plate 213
C. CHANG & C. T. SUN (USA)

Conference Diary 237

Number 4

Design Methodology for the Molding of Short-Fiber Thermoset Composites . 241
RUSHAD F. EDULJEE, JOHN W. GILLESPIE, JR &
R. BYRON PIPES (USA)

Role of Matrix Resin in Delamination Onset and Growth in Composite Laminates 257
LIN YE (People's Republic of China)

Low-Velocity Hard-Object Impact of Filament-Wound Kevlar/Epoxy Composite 279
P. I. MEYER (USA)

Thermo-viscoplastic Residual Stresses in Metal Matrix Composites . . . 295
EDWARD ZYWICZ & DAVID M. PARKS (USA)

Conference Diary 317

Subject Index 320

Author Index 322

Contents of Composite Structures

As a service to readers, the contents list of the current issue of this sister journal is reproduced here.

Volume 10, Number 3

Design and Application of a Pultrusion for Multiple Use in the Fokker 100 . . . 199
ARNT OFFRINGA (The Netherlands)

Vibration of Laminated Orthotropic Plates using a Simplified Higher-order Deformation Theory 211
N. R. SENTHILNATHAN, S. P. LIM, K. H. LEE & S. T. CHOW (Singapore)

Vibration and Damping Analysis of Curved Sandwich Beams with a Viscoelastic Core . 231
J. VASWANI, N. T. ASNANI & B. C. NAKRA (India)

The Influence of Target Geometry on the High Velocity Impact Response of CFRP . . 247
W. J. CANTWELL (Switzerland)

Book Reviews

Composites Evaluation. Proceedings of the Second International Conference on Testing, Evaluation and Quality Control of Composites—TEQC 87. Edited by J. Herriot, 1987. Butterworth Scientific Ltd, Guildford 267

Non-destructive Testing of Fibre-reinforced Plastics Composites, Volume 1. Edited by John Summerscales, 1987. Elsevier Applied Science Publishers, London 268

Mechanical Behaviour of Composites and Laminates. Edited by W. A. Green and M. V. Micunovic, 1987. Elsevier Applied Science Publishers, London 269
(Reviewed by I. H. Marshall)

Composites Science and Technology (**33**) (1988)—© 1988 Elsevier Science Publishers Ltd, England. Printed in Great Britain
